Data sheet

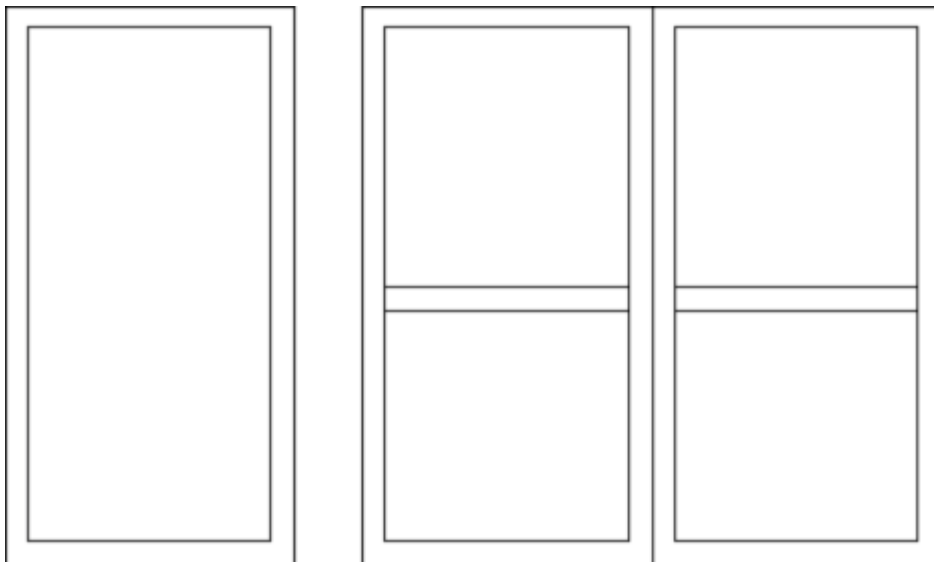

I-30-TW: Interior timber-framed 30 minute FRR windows, single glazed

Our The I-30-SW is NZFD's interior 30 minute fire-rated window unit in a timber frame. It is available in a wide range of pane combinations and is made to order. Each pane is generally manufactured separately for ease of transport and on-site handling (weight and size), then assembled on site. Depending on size, pre-built multiple pane units are available ex-factory. Your choice of glass affects available pane sizing and fire rating options.

Call us for more information about windows. Please contact a member of our sales team on (09) 579 8895 to discuss and confirm specific pane sizing, design and pricing details.

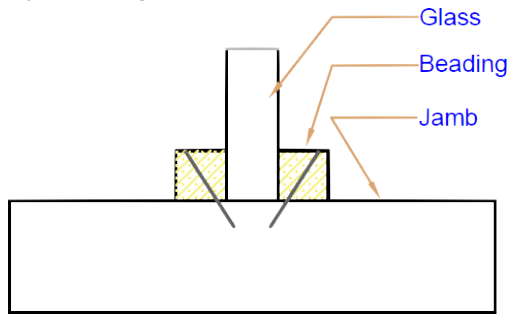

I-30-TW: Interior timber-framed 30 minute FRR windows, single glazed

- Max overall combined height 6000 mm.
- 45 mm timber jambs.
